Staff Rota Sheet

Get a week's cover onto one page where the whole team can see it, so the gaps show up before the week starts.

A week's rota on one page: who is on, when, and where the gaps are before the week starts rather than during it.

ON THE WALL, NOT IN A MESSAGE

Print it, put it where the team can see it, and write changes on the sheet rather than telling one person. A rota that lives on a phone is a rota half the team has not seen.
