

Chess Game Score Sheet

Record a game move by move in a layout with room to write legibly under time pressure, then hand it in at the end of the round.

One game, move by move, with the clock and the result — the sheet handed in at the end of a round.

YOUR ORGANISER'S RULES COME FIRST

Recording moves is a condition of play in most rated events, and the organiser's own rules on notation, clock times and what happens in time trouble are the ones that count. This is a plain scoresheet, not any federation's official form.
