

Dog Vaccination Record

Keep a dog's whole vaccination history on one page you can hand to a kennel, a groomer or a new vet.

Every vaccination on one line — the date, what was given, the batch number and when the next one falls due — with the microchip, insurance and practice details alongside it. Copy each line from the certificate your own vet gave you.

STRAIGHT OFF THE CERTIFICATE

Copy the entries, do not work them out. What a dog is given, and when the next one falls due, is a decision for the vet who examined that dog — it varies by country, by area and by the individual animal. This sheet is deliberately blank so that what you write is what your vet actually said.

THE DOG

Dog's name	Breed or type	Date of birth	Sex
Colour and markings	Neutered — date	Weight, and when weighed	
Microchip number	Chip database and reference	Pet passport or travel document	
Owner	Contact number	Second contact	

VET, INSURANCE AND EMERGENCY CONTACTS

Vet practice	Phone	Out-of-hours number	
Insurer	Policy number	Renews	Excess

VACCINATION RECORD

one line per visit, copied from the certificate

Date given	Vaccine given	Batch / lot no.	Given by	Next due
dd/mm/yy	as written		practice	dd/mm/yy

Date given	Vaccine given	Batch / lot no.	Given by	Next due
dd/mm/yy	as written		practice	dd/mm/yy

BOARDING, DAY CARE, GROOMING AND TRAVEL what each place asked to see, and when you showed it

Facility	What they asked for	Shown on
Notes and anything specific to yours
