

Fence and Boundary Inspection Record

Record the fence walk and the faults, including who is responsible for each boundary before money is spent on it.

The fence line walked, faults found, and who is responsible for the boundary they are on.

RECORD THE BOUNDARY; CHECK THE DEEDS

Boundary responsibility is a legal matter set by deeds and local law, not by which side the posts are on. Record what you believe and where the belief comes from, and take advice before spending money on somebody else's fence.
