

First Aid Treatment Log

Keep a running record of first aid given so that supplies used and patterns of injury are both visible in one place.

A running log of first aid given, so supplies used and patterns of injury are both visible.

A LOG, NOT FIRST AID GUIDANCE

This is a log of treatment given, not guidance on giving it. It prints no first aid instruction of any kind. Where an entry needs a formal accident record, complete one as well. What must be tested or recorded, how often, by whom and how long the record must be kept differ by country and by the kind of premises. This sheet prints no interval and no criterion, names no scheme and satisfies no regulation on its own.
