

Goat Kidding Record

Record each kidding on the day, including the assistance and the losses, so next season is planned from what happened.

Every kidding recorded on the day — doe, buck, assistance, kids born and what became of them.

A RECORD OF THE KIDDING, NOT ADVICE ABOUT IT
The sheet records births. It gives no guidance on when to intervene or when to call a vet, because that is a judgement made in front of the animal by somebody who can see it.
