

Golf Round and Scorecard

Record why a round finished where it did, not just the number, by tracking the three statistics that explain almost all of it.

Eighteen holes with the shots that actually cost you the round — fairways, greens and putts, not just the score.

WHY, NOT JUST WHAT

A score tells you what happened. Fairways hit, greens in regulation and putts tell you why. No handicap calculation is printed here — handicapping is run by your union or association and their method is the one that counts.

Player _____ Course _____ Date _____ Tees _____ Conditions _____

Hole	Par	Yards	Score	Putts	Fairway	Green in reg.	Penalties	Club off tee	What the hole cost me

Total score Total putts Fairways hit Greens hit One thing to work on
