

Homeschool Hours Log

Keep a running record of hours taught, in a form that can be handed over if anybody ever asks for it.

Hours taught, by subject and by day, totalled for the week and carried forward.

YOUR REQUIREMENTS, YOUR SUBJECTS

No required hours, subjects or standards are printed on this sheet. What must be recorded, and how much, differs by country and often by region — and in many places nothing is required at all. Write in the subjects you teach and the figure you are working to.
