

Hot Tub Water Care Log

Keep on top of chemistry in a small volume of hot water, where readings move fast and drain-downs are on a schedule.

Water care and filter record for a hot tub or spa, where the small volume means chemistry moves fast and drain-downs matter.

READ YOUR OWN MANUFACTURER'S RANGES

Target ranges come from your tub manufacturer and your test strips, and differ between chlorine, bromine and salt systems. This sheet records what you measured and what you added; it does not tell you what the numbers should be.

Tub make & model

Volume

Sanitiser

Filter part no.

Last drained

Next drain due
