

Lesson Plan Sheet

Plan one lesson on one page, with space for the two things people skip: the checking, and the plan for the students who have not got it.

One lesson on one page: what they should leave knowing, how the time is spent, and what could go wrong.

PLAN THE CHECKING, NOT JUST THE TELLING

The two sections people skip are the ones that make a lesson work: how you will know they have got it, and what you will do for the ones who have not. Both have space here.

Class or group	Subject	Date	Time	Room
