

Meter Reading Log

Build a running record of readings and the usage between them, so a bill is something you can check rather than something you have to accept.

A running record of electricity, gas and water readings, with the usage between them worked out — so a bill can be checked against something rather than accepted.

SAME DAY EACH MONTH

Read on the same date each month and the usage column becomes comparable month to month. Write the meter serial numbers in once: they are what identifies the meter if a reading is ever queried.

Property

Electricity meter no.

Gas meter no.

Water meter no.

Electricity supplier

Gas supplier

Water supplier

Date	Electricity	Used	Gas	Used	Water	Used	Notes
