

Player Registration Form

Register a player with the contact details a club actually needs, and a place to add the declarations your own governing body requires.

One player, one form: who they are, who to call, and what the club needs to know to run a session.

CONTACT DETAILS, NOT MEDICAL RECORDS

This form asks where medical information is held and who to call. It prints no medical fields, no condition list and no treatment, and it is not a consent form, a waiver or a disclaimer — those are legal documents whose wording and effect differ by country, and your club's governing body or insurer will tell you what yours must say. This sheet holds personal information. Keep it somewhere secure, share it only with people who need it, and keep it only as long as you need it. Rules on holding personal data — especially about children — differ by country and apply to paper as much as to computers.
