

Quilt Project Planner

Hold one quilt's plan, fabric and progress on a single page, so the piecing maths and the yardage are not on the back of an envelope that gets thrown out.

One quilt from the first sketch to the last stitch — sizes, blocks, fabric, yardage and where the time actually went.

YOUR PATTERN'S FIGURES, NOT OURS

No block patterns, seam allowances or yardage figures are printed here. Those come from your pattern and your own maths, and a printed figure that happens to be for a different block size is worse than a blank space.
