

Rabbit and Small Stock Care Record

Catch a problem early by writing the weight down weekly, because rabbits hide illness until it is advanced.

Daily care, weights, nails, teeth and vet visits for rabbits and other small stock.

THE TREND MATTERS MORE THAN THE NUMBER
Rabbits hide illness until it is advanced, which is why a weight written down weekly is worth more than a general impression of how they look. No target weights are printed — the trend is the signal, not the number.
