

Reading Record Sheet

Keep a running record of what a child has read and how it went, without attaching a level or an age to any of it.

What was read, when, how far, and how it went — kept by the reader or by whoever listens to them.

NO LEVELS OR AGES ARE PRINTED
No reading levels, ages or targets appear anywhere on this sheet. Levelling schemes differ by country and by school, and a number printed here would be somebody else's. The comment column is worth more than any of them.
