

Renovation Budget Tracker

See the gap between what you planned to spend and what you have spent while there is still time to do something about it, rather than at the end.

What you planned to spend, what you were quoted, what you actually paid, and the gap between them — one line per element of the job.

A RECORD, NOT ADVICE

This sheet records numbers. It does not say what anything should cost, and it is not a view on what you can afford or how the work should be funded. Fill in your own figures and keep the invoices with it.
