

Road Trip Planner

Plan a driving trip by day, with the two things that decide how it feels: how long you are actually driving, and where you are sleeping.

A trip planned by day: where you are going, how far, where you are staying and what it is costing.

HOURS DRIVING, AND WHERE YOU SLEEP

The two columns people leave out are the ones that matter on the day: driving time honestly estimated, and where you are actually sleeping. Book those and the rest looks after itself.
