

Smallholding Annual Cost and Yield Summary

Find out what the holding actually costs against what it produces, which is a question most smallholdings avoid asking.

What the year cost against what it produced — the one page most smallholdings never fill in.

ARITHMETIC, NOT ACCOUNTANCY

This is arithmetic on your own figures. It is not accounting advice and it is not a tax return: what counts as a business, what may be deducted and what must be declared differ by country and by whether your holding is a hobby or a trade. Ask an accountant.
