

Status Report Sheet

Report a period honestly on one page, with real space for the two sections people skip: what slipped, and what you need from somebody else.

A one-page report for a period: what moved, what did not, what is at risk and what is needed next.

WRITE THE AWKWARD SECTIONS

The useful sections of a status report are the two people skip — what slipped, and what you need from somebody else. They are given real space here.
