

Show that a round actually happened, at what time and by whom, and get a reported fault in front of somebody who can fix it.

THE FREQUENCY IS YOURS TO SET – CHECK WHAT APPLIES

How often a washroom is attended to, what a round has to cover and what has to be recorded are set locally — they differ by country, by the kind of premises and by the operator, and they change. Check what applies to yours and write the frequency in below. This is a record of rounds carried out; it is not a standard and it sets no requirement.

Frequency agreed for this washroom

[illegible]
