

Weaning Record

Record weaning properly, because the age and weight it happened at explains a lot of what the group does afterwards.

Weaning dates and weights by group, with how they settled afterwards.

YOUR INTENDED AGE, IN THE HEADER
No weaning age or weight is printed. It differs by species, breed and system, and it is a welfare question as well as a productivity one. Write your own intended age at the top.

Holding		Species		Age you wean at, and why			Year
Date	Group or dam	Number weaned	Age at weaning	Average weight	Moved to	Settled by	Notes
