

Weekly Timetable Sheet

Lay a week out as a grid using your own period times, for a class, a room or one person.

A week laid out as a grid — periods down the side, days across — for a class, a room or one person.

YOUR PERIODS, YOUR TIMES

Write your own period times down the left. School days differ by country and by setting, and a printed timetable that assumes six fifty-minute periods is wrong nearly everywhere.

Whose timetable			Term or year		Room, where fixed		From	
Time	Mon	Tue	Wed	Thu	Fri	Sat	Sun	

Clubs, duties and anything outside the grid
