

Weekly Timetable Sheet

Lay a week out as a grid using your own period times, for a class, a room or one person.

A week laid out as a grid — periods down the side, days across — for a class, a room or one person.

YOUR PERIODS, YOUR TIMES
Write your own period times down the left. School days differ by country and by setting, and a printed timetable that assumes six fifty-minute periods is wrong nearly everywhere.

Whose timetable

Term or year

Room, where fixed

From

Time	Mon	Tue	Wed	Thu	Fri	Sat	Sun

Clubs, duties and anything outside the grid

Updated
